

# Project Report

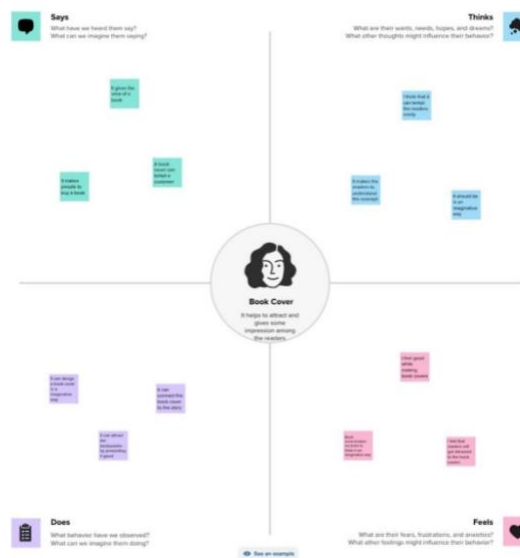

## 1. Introduction:

**1.1 Overview:** The Front Cover is the first of the physical parts of a book.

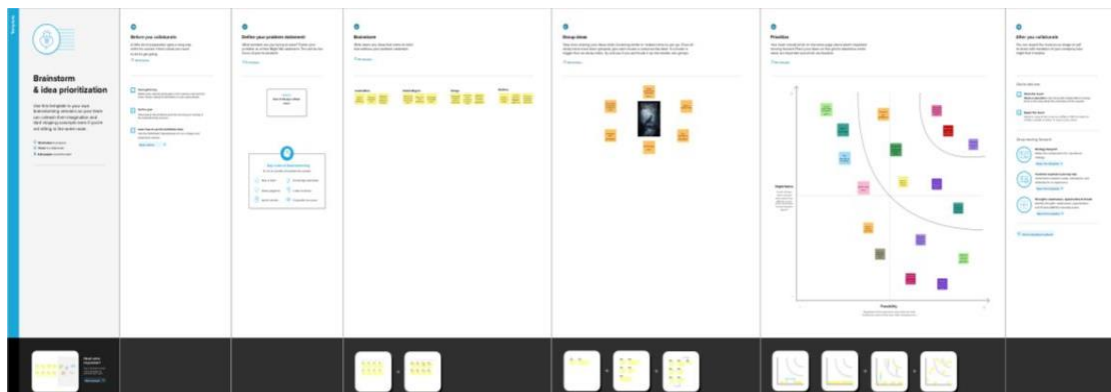

**1.2 Purpose:** To sell the book by intriguing the right readers. The essential elements of a front cover include title and author name.

## 2. Problem Definition & Design Thinking:

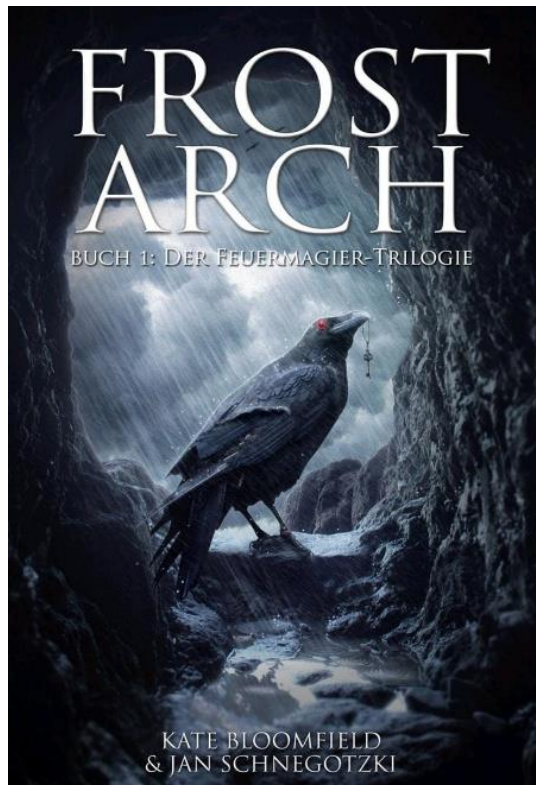

### 2.1 Empathy Map:

### 2.2 Ideation & Brainstorming:

### 3. Result:

### 4. Advantages & Disadvantages:

- Portable – easy to carry with you
- Cost-effective
- Prone to damage
- Publishers do not adhere to a standard size

### 5. Application:

One of the most significant benefits of canva is the unlimited access to premium templates and assets. In that we took Book Cover templates. Design a perfect book cover to attract readers mind.

### 6. Conclusion:

In this project I have learned how to create a book cover. A book cover can make readers to think about the book so design it wisely.
